

MATIMBA MAHANGE

CHIEF EXECUTIVE OFFICER

Chief Executive Officer of J.A. Engineering holds a BSc Electrical Engineering Degree from the University of Natal-Durban and an MBL - Master's in Business Leadership degree from the Unisa Business School of Leadership, South Africa.

With over 2 decades of experience, Matimba has proven his versatility by working in various sectors ranging from Mining (Anglo), Chemicals (Sasol Synfuels), Automotive (BMW), and Mining & Construction equipment of OEMs (Joy Global & Barloworld).

Matimba's priority is to drive JAE's growth strategy with focus on defending and growing the existing underground coal business, growing the new Hard Rock underground business (in partnership with Ferrit Mining Solutions), growing the opencast components and machine rebuild business and creating an engineering solutions offering to solve Mining problems that traditional OEM's do not offer in Mining and Mining related heavy engineering industries. J.A.E is well known as a provider of innovative mining solutions.
